

ENVIRONMENTAL AND SOCIAL SCREENING

Must Accompany all Medium- and Long-term Financing Applications

The information provided on this form is used to environmentally and socially categorize the application and thereby determine the information needed (if any) for EXIM to evaluate the environmental and social effects of the transaction, a process that is crucial to the appropriate and timely review of your application. Please provide the information requested and check the boxes that apply.

Are the products or services covered in your application designated for an identified project?

No, please explain:

Yes, identify the project: _____

- a. Indicate whether this a new (“greenfield”) project, a rehabilitation or an expansion in size or output of an existing project:

- b. Provide a brief description, including output, capacity, size, etc.:

- c. List environmental and social impact assessments and related documents prepared for this project:

PROJECT LOCATION

Is the project located in the United States, its territories or possessions?

No, please identify the country: _____

Yes, please identify the state, territory or possession: _____

- a. Is any other Federal agency involved/engaged in this project?

No

Yes Please name: _____

- b. Please complete [Attachment I \(Form EIB 22-05\): Domestic Finance Transactions](#).

PROJECT CHARACTERISTICS AND SETTING

Is the project located in or near an environmentally or socially sensitive site or area? (Check all applicable, if any):

Tropical Forests or Other Areas with High Biological Diversity

Nationally or Internationally Designated Protected Areas, such as Wetlands, Seashores, Wildlife Refuges, National Parks, etc.

Habitat or Endangered or Other Protected Species

Located in International Waters

Location Affecting Indigenous, Tribal, or Other Vulnerable Populations

- Location having Historical, Cultural, or Archaeological Significance
- Large Scale Resettlement or other potentially significant impacts (Potential Number of People Affected: _____)
- Properties on the UNESCO World Heritage Site List
- Crosses international boundary
- Project generates Greenhouse Gas (GHG) emissions (Scope 1 and 2) in excess of 25,000 metric tons per annum

PROJECT SECTOR OR INDUSTRY
